140 LB
CAPACITY

BUILT FOR PROS.

FOOT-STABILIZING HOOK
Kick plate to load panels with reduced bending. Slip-resistant coating protects surfaces.

NUMBERED DAISY CHAIN LOOPS
Dial in your ideal lift and balance point.

BUNGEE & CARABINER
Hook bungee to the top of the panel to hold the tool upright while positioning the panel hook.

DURABLE LIFTING STRAP
High-strength polyester webbing built for heavy loads and daily use.

PADDED WRIST LOOP
Provides an additional carrying option and helps reduce hand fatigue.

PATENTED COMFORT-GRIP HANDLE

STEP 1:
PEG OUT
REMOVE THE PEG FROM THE HANDLE, THEN HOOK THE HANDLE ONTO YOUR CHOSEN DAISY CHAIN LOOP.

STEP 2:
PEG 1/2 IN
INSERT THE PEG HALFWAY INTO THE HANDLE PEG LEGS TO BEGIN SECURING THE POSITION.

STEP 3:
PEG FULLY IN
PUSH THE PEG FULLY THROUGH THE SECOND PEG LEG, THEN ROTATE DOWNWARD TO THE LOCKED POSITION.

DESIGNED AND ENGINEERED IN THE USA

WATCH IT IN ACTION
PerfectPanelLift.com

BUILT TO MAKE HARD WORK EASIER.

6 EASY STEPS. ONE-PERSON. LESS BENDING.

ATTACH BUNGEE

Hook the bungee over the top edge of the panel to hold the tool upright during setup.

POSITION & STEP ON HOOK

Slide the foot-stabilizing hook under the bottom edge of the panel, then step on the kick plate to secure it.

RAISE THE PANEL

Raise the panel and seat its bottom edge securely in the hook.

DIAL IN YOUR GRIP

Move the handle to the numbered loop that provides the best lift and balance point.

LIFT & CARRY

Bend your knees, lift with your legs, and carry while maintaining control.

MOVE CAREFULLY

Keep your path clear and use caution on stairs, ramps, inclines, and uneven surfaces.

7 REASONS PROS CHOOSE THE PERFECT PANEL LIFT.

1	2	3	4	5	6	7
						<div>140 LB WORKING LOAD LIMIT</div>
PATENTED COMFORT GRIP HANDLE Patented locking peg design. Secure grip, all-day comfort.	NUMBERED DAISY CHAIN LOOPS Dial in your ideal lift and balance point.	BUNGEE & CARABINER Clip to your belt loop or panel — keeps the tool at hand between loads.	FOOT-STABILIZING HOOK 2" receiving area — load panels with less bending.	SLIP-RESISTANT HOOK DESIGN Rubber surface keeps the panel secure in the hook.	CARRY ALL DAY PADDED WRIST LOOP Additional carrying option helps reduce hand fatigue.	140 LB CAPACITY Handles plywood, drywall, doors and more — up to 140 lbs.

PRO TIP:

Attach bungee to belt loop when working at a busy pace. Frees both hands and keeps the panel lifter ready at your side when you need it.

MOVE ANYTHING. ANYWHERE.
